
RESEARCH MEETING

The 9th Annual Meeting of the Japanese Society of Cancer Prevention (JSCP)

President of JSCP: **Hiroshi Maeda**

Department of Microbiology, Kumamoto University School of Medicine

The 25th Annual Meeting of the Japanese Society of Cancer Epidemiology (JSCE)

President of JSCE: **Takesumi Yoshimura**

Department of Clinical Epidemiology, University of Occupational and Environmental Health

July 15th (Monday)

- 9:35-12:00 Symposium I: *Infection and Cancer*
- S1 Parasitic Infection and Cancer
Satoshi Honjo, Tochigi Cancer Center
- S2 Helicobacter pylori and Stomach Cancer
Shogo Kikuchi, Aichi Medical University
- S3 Risk Impact of Liver Cancer by Hepatitis Virus Infection and its Modifying Factors
Keitaro Tanaka, Saga medical University
- S4 HPV Infection and Cervical Cancer
Chisato Nagata, Gifu University School of Medicine
- 13:10-14:00 Special Lecture
Chronic Bacterial Infection and Cancer-Epidemiological Aspects
Kunio Aoki, Aichi Cancer Center (President Emeritus)
- 14:00-16:05 Symposium II: *Free Radicals and DNA Damage*
- S1 Damage of Cancer Suppressor Gene by Radicals
Nobuya Toyokuni, Kyoto University Graduate School of Medicine
- S2 Progression of Cancer Cells by Free Radicals
Futoshi Okada, Institute for Genetic Medicine, Hokkaido University
- S3 DNA Damage by Infection and Inflammation Reactive Products
Hiroshi Ohshima, International Agency for Research of Cancer
- S4 Damage of Mitochondrial DNA by Oxi-stress on Hepatitis
Katsuro Koike, Cancer Institute
- S5 DNA Damage by Oxi-stress
Hiroshi Kasai, University of Occupational and Environmental Health
- 16:05-19:00 Poster Presentations

July 16th (Tuesday)

- 9:00-9:50 Special Lecture
Indispensable Knowledge of Carcinogenicity for Cancer Prevention
Takashi Sugimura, National Cancer Center (President Emeritus)
- 9:50-12:40 Oral Presentations
- 13:45-15:25 Symposium III: *Secondary Factors for Infection-related Carcinogenicity*
- S1 iNOS Expression and Cancer Progression
Hiroyasu Ezumi, National Cancer Center Research Institute East
- S2 Parasitic Carcinogenicity with Special Reference to Liver Flukes and Cancer
Tomoyuki Shirai, Medical School, Nagoya City University
- S3 Modification of Stomach Carcinogenicity by Helicobacter pylori infection in Gerbils
Masae Tatematsu, Aichi Cancer Center Research Institute
- S4 Suppression against Progression of Hepatitis and Liver Cancer after HCV Chronic Hepatitis and Liver Cirrhosis
Kazuo Tarao, Kanagawa Cancer Center
- 15.40 –17.20 Workshop: *Cancer Prevention by Food Elements*
- W1 Eliminating Factor of Free Radical Scavenger in Plant Seeds
Toshihiko Osawa, Faculty of Agriculture, Nagoya University
- W2 Food Elements of Suppression of NOS and Superoxides
Hajime Ohigashi, Faculty of Agriculture, Kyoto University

- W3 Multiphasic Cancer Prevention by Lactoferrin
Hiroyuki Tsuda, National Cancer Center
Research Institute
- W4 Mechanism of Liver Carcinogenicity by Choline
Deficiency in Foods and Its Modification by Other
Food Elements
Dai Nakae, Sasaki Research Institute
- W5 Cancer Prevention and Bacterial Flora
Masami Morotomi, Central Institute of Yakult
Company

Drs Yoshimura, Tajima, Aoki, Morimoto, Maeda and Sugimura
